1. Overview of Business Performance

An overview of the financial position, operating results, and cash flows of the Group (the Company, its consolidated subsidiaries, and equity-method affiliates) for the fiscal year under review is as follows.

(1) Overview of Operating Results for the Fiscal Year Under Review

During the fiscal year under review (January 1, 2025 to December 31, 2025), the Japanese economy remained on a gradual recovery trend, with improvements in employment and income, increased demand from inbound tourism, and a recovery in service consumption due to the effects of a variety of policies, despite delays in capital investment caused by rising prices and labor shortages and stagnation in personal consumption. Meanwhile, ongoing tightening of monetary policy due to high global inflation rates and the impact of continued stagnation in the Chinese economy due to a sluggish real estate market have posed downside risks to the Japanese economy. In addition, rising prices for construction materials and food products due to the weak yen have raised concerns about restrained consumer spending. Moreover, prolonged conflict in Ukraine, instability in the Middle East, and strained political relations between Japan and China continued to create an unstable international environment. Concerns also spread regarding changes in the global trade environment due to nationalist policies such as increased U.S. tariffs, leading to turbulence in financial and capital markets and a persistently uncertain outlook.

The business environment for the Group remained harsh, with prices still at high levels for electricity and gas fuel as well as raw materials such as paper and ink. Meanwhile, demand from inbound tourism and service consumption recovered steadily, and corporate advertising efforts have continued to show signs of revitalization, with an increase in demand for promotional tools and services. Based on changes in the business environment and business strategy, the Group is dynamically concentrating its business assets in future growth areas to provide our customers with services of even greater added value. During the fiscal year under review, in the Printing sector, Fujiplus Inc., which operates printing businesses in the Kansai region, SilkyACT Inc., which specializes in plastic file folder printing, SUNMEC Co., Ltd., which has a large-scale manufacturing facility for sticker printing, and SUZUKI SHOFUDO Co., Ltd., which manufactures paper tubes and cylindrical paper packaging, became consolidated subsidiaries of the Group. In the IT Media Sales Promotion sector, DNTI Co., Ltd., which maintains an offshore development base in China and provides IT system design consulting aimed at enhancing customers' business value, became a consolidated subsidiary of the Group. In addition, Yokohama Material Co., Ltd., which manufactures crystal gift and commemorative items, TRUST Co., Ltd., which holds a leading market share in Japan in the manufacture and sale of desktop calendars, West Management Inc., which manages foreign models, Nihon Sample Co., Ltd., which primarily manufactures food samples, and MONROART Co., Ltd., which manufactures monuments and architectural interior and exterior materials using fiber-reinforced plastic (FRP), became subsidiaries of the Group. The Group has proceeded with certain mergers among its subsidiaries with the aim of improving business efficiency and strengthening sales activities. Furthermore, in order to improve the capital efficiency of real estate and other management resources as well as strengthen its financial position, the Group sold some of its real estate properties and decided to pay a special dividend to shareholders in addition to the ordinary dividend for both the third quarter and year-end dividends. As a unique business entity capable of integrating everything from planning and proposals to manufacturing, production, and media-based distribution, the Group has worked to expand its Creative Service business domain.

As a result, for the fiscal year under review, net sales were ¥86,987 million (up 8.6% year-on-year), operating profit was ¥3,010 million (down 30.8% year-on-year), and EBITDA, calculated by adding depreciation and amortization of goodwill to operating profit, was ¥5,322 million (down 15.5% year-on-year). Ordinary profit was ¥3,201 million (down 23.8% year-on-year), due primarily to the recording of foreign exchange gains of ¥137 million and gain on investments in silent partnerships of ¥246 million, offset by interest expenses of ¥536 million (up ¥289 million year-on-year) and commission expenses related to finance of ¥180 million. Profit attributable to owners of parent was ¥6,530 million (up 127.4% year-on-year), due primarily to the recording of a gain on sale of non-current assets of ¥5,758 million.

The Group's business consists of a single segment and thus segment-specific data has been omitted.

(2) Overview of Financial Position for the Fiscal Year Under Review

The financial position as of December 31, 2025 was as follows.

(Assets)

Total assets as of December 31, 2025 increased by ¥9,954 million from the end of the previous fiscal year to ¥85,058 million. This was primarily due to increases in accounts receivable - trade; electronically recorded monetary claims - operating; raw materials and supplies; short-term loans receivable; prepaid expenses classified as "Other" within current assets; buildings and structures; machinery, equipment and vehicles; land; construction in progress; goodwill; investment securities; and items classified as "Other" within investments and other assets, including long-term prepaid expenses and leasehold and guarantee deposits; despite decreases in cash and deposits; notes receivable - trade; merchandise and finished goods; and investments in capital classified as "Other" within investments and other assets.

(Liabilities)

Liabilities as of December 31, 2025 increased by ¥4,663 million from the end of the previous fiscal year to ¥63,774 million. With respect to current liabilities, there was a decrease of ¥5,441 million from the end of the previous fiscal year, due primarily to decreases in short-term borrowings; current portion of long-term borrowings; income taxes payable; and items classified as "Other" within current liabilities, including accounts payable - facilities, accrued consumption taxes, advances received, and deposits

received; despite increases in accounts payable - trade; current portion of bonds payable; and accrued expenses classified as “Other” within current liabilities. As for non-current liabilities, there was an increase of ¥10,105 million from the end of the previous fiscal year, due primarily to increases in bonds payable, long-term borrowings, and deferred tax liabilities, despite decreases in long-term accounts payable - other and long-term accounts payable - facilities classified as “Other” within non-current liabilities.

(Net Assets)

Net assets as of December 31, 2025 increased by ¥5,291 million from the end of the previous fiscal year to ¥21,283 million. This was primarily due to an increase in retained earnings resulting from the recording of profit attributable to owners of parent that exceeded the decrease caused by dividend payments.

(3) Overview of Cash Flows for the Fiscal Year Under Review

Cash and cash equivalents (hereinafter referred to as “funds”) as of December 31, 2025 decreased by ¥759 million from the end of the previous fiscal year to ¥11,472 million.

The status of each cash flow and the main factors affecting them during the fiscal year under review are as follows.

(Cash Flows From Operating Activities)

Funds provided by operating activities amounted to ¥3,890 million (down ¥2,844 million year-on-year). This was primarily due to increases in funds resulting from profit before income taxes of ¥7,334 million, depreciation of ¥2,207 million, impairment losses of ¥807 million, amortization of goodwill of ¥161 million, interest expenses of ¥536 million, commission expenses of ¥180 million, loss on valuation of investment securities of ¥405 million, business restructuring expenses of ¥253 million, decrease in trade receivables of ¥1,447 million, and decrease in inventories of ¥394 million, despite decreases in funds resulting from decrease in retirement benefit liability of ¥160 million, foreign exchange gains of ¥137 million, share of profit of entities accounted for using equity method of ¥251 million, gain on investments in silent partnerships of ¥246 million, gain on sale of non-current assets of ¥5,727 million, decrease in trade payables of ¥194 million, interest paid of ¥679 million, and income taxes paid of ¥1,598 million.

(Cash Flows From Investing Activities)

Funds used in investing activities amounted to ¥7,947 million (up ¥5,418 million year-on-year). This was primarily due to decreases in funds resulting from purchase of property, plant and equipment of ¥7,467 million, purchase of investment securities of ¥3,593 million, purchase of shares of subsidiaries resulting in change in scope of consolidation of ¥5,885 million, and loan advances of ¥3,877 million, despite increases in funds resulting from proceeds from sale of property, plant and equipment of ¥8,564 million and proceeds from collection of loans receivable of ¥3,465 million.

(Cash Flows From Financing Activities)

Funds provided by financing activities amounted to ¥2,967 million (compared to ¥6,542 million used in the previous fiscal year). This was primarily due to increase in funds resulting from proceeds from long-term borrowings of ¥12,200 million and proceeds from issuance of bonds of ¥4,500 million, despite decreases in funds resulting from net decrease in short-term borrowings of ¥2,000 million, repayments of long-term borrowings of ¥8,650 million, redemption of bonds of ¥250 million, purchase of treasury shares of ¥631 million, dividends paid of ¥1,737 million, purchase of shares of subsidiaries not resulting in change in scope of consolidation of ¥222 million, and commission fee of ¥180 million.

2. Market capitalization is calculated based on the number of issued shares excluding treasury shares.

3. Cash flow refers to operating cash flow.

4. Interest-bearing debt includes all liabilities recorded on the consolidated balance sheet for which interest is paid.

(4) Future Outlook

With regard to future outlook, while uncertainty is expected to increase further due to factors such as the slowdown of the Chinese economy, the continuation of geopolitical risks including the state of affairs in Ukraine and the Middle East, and intensifying trade friction stemming from future U.S. policy trends, inflation is expected to ease and interest rates to decline in many countries and regions, and the global economy as a whole is expected to continue on a moderate recovery trend. The Japanese economy is expected to follow a moderate recovery trend, supported by improvements in employment and income conditions based on

corporate wage and pricing behavior and the expansion of inbound consumption, amid continued price increases due to the weak yen and persistently high raw material and energy prices, under a backdrop of moderate global economic growth. However, amid unstable international political conditions, risks such as rising interest rates and volatile exchange rate conditions remain, and the economic outlook continues to be uncertain.

In the creative services industry in which the Group operates, advanced information technologies such as IoT, AI, big data analytics, and sharing-economy models are progressing, alongside evolving printing technologies and improvements in network environments, including faster mobile networks. Against this backdrop, as 4K displays, VR devices, and other technologies become more widespread, the methods, technologies, and means of creative expression demanded by clients are expected to become increasingly diverse. The Group is a collective of companies that possesses not only traditional printing and manufacturing technologies, but also diverse design capabilities, including the design of products such as fixtures and display units, as well as video creative expertise centered on 3D CAD and 3D computer graphics, spatial audio technologies, and IT development capabilities incorporating AR and VR. The Group maintains a competitive advantage by retaining comprehensive specialized expertise and flexibly reallocating business assets in response to environmental changes. Looking ahead, with a full-scale economic recovery, borrowing interest rates, personnel costs, and prices of production equipment are expected to rise. As consumer demand increases, the Group anticipates a growing number of customers seeking its highly specialized products and services. To bolster its ability to respond to these expectations, the Group intends to carry out substantial equipment upgrades and bold business restructuring while controlling financing costs.

Regarding performance in the next fiscal year, while aggressive capital investment by operating companies is expected to result in a temporary increase in depreciation expenses, consolidated subsidiaries newly added during the fiscal year under review are expected to contribute to results, leading to projected net sales of ¥95,000 million. Operating profit is projected at ¥2,400 million, and ordinary profit is projected at ¥3,600 million. EBITDA, calculated by adding depreciation and amortization of goodwill to operating profit, is projected at ¥6,600 million, and profit attributable to owners of parent is projected at ¥2,000 million.

2. Basic Policy on Accounting Standard Selection

The Group's policy is, for the time being, to prepare consolidated financial statements in accordance with Japanese GAAP, taking into consideration period-to-period comparability and comparability among companies. The Group intends to appropriately adopt the International Financial Reporting Standards (IFRS) after considering domestic and international circumstances.

(Notes on Changes in Accounting Policies)

The “Accounting Standard for Current Income Taxes” (Accounting Standards Board of Japan (ASBJ) Statement No. 27, October 28, 2022; hereinafter referred to as the “Revised Accounting Standard of 2022”), etc. have been applied from the beginning of the current fiscal year.

Revisions to categories for recording current income taxes (taxation on other comprehensive income) conform to the transitional treatment prescribed in the proviso to paragraph 20-3 of the Revised Accounting Standard of 2022 and to the transitional treatment prescribed in the proviso to paragraph 65-2(2) of the “Guidance on Accounting Standard for Tax Effect Accounting” (ASBJ Guidance No. 28, October 28, 2022; hereinafter referred to as the “Revised Guidance of 2022”). These changes in accounting policies have no impact on the consolidated financial statements.

In addition, for changes related to the revised treatment in consolidated financial statements when a gain or loss on sale arising from the sale of shares of subsidiaries, etc. among consolidated companies is deferred for tax purposes, the Revised Guidance of 2022 has been applied from the beginning of the current fiscal year. This change in accounting policy has been applied retrospectively and is reflected in the consolidated financial statements for the previous fiscal year. This change in accounting policy has no impact on the consolidated financial statements for the previous fiscal year.
